

JOIN AVIATION'S DIGITAL TRANSFORMATION

SKYTELLIGENCE®

THE DIGITAL DATA MARKETPLACE FOR AVIATION

SmartSky Networks Skytelligence is a powerful platform for aviation's digital transformation. Skytelligence brings together data compiled from numerous sources across aviation's digital ecosystem, providing developers, researchers and stakeholders a single point of connection to contribute, access, evaluate, purchase and license data.

CROWDSOURCED

From large aggregators to single contributors, Skytelligence brings it all together for you.

INTELLIGENT

Whether utilized for APIs or by an end user, Skytelligence enables exceptional insights, powering innovation.

DIGITAL MARKETPLACE

Contribute, purchase, sell or license data according to datasource requirements.

CURRENT API'S INCLUDE

Aeronautical Data
Aircraft Information

Flight Data
Location Data

NOTAM Data
Routing Data

Security Data
Turbulence Data

MAKING FLIGHTS SMOOTHER, SAFER AND MORE EFFICIENT

SmoothSky™

Powered by IATA's Turbulence Aware Supported by

SKYTELLIGENCE

Skytelligence APIs power SmartSky's exclusive live, real-time turbulence avoidance application, SmoothSky. SmoothSky uses live crowdsourced, aircraft-generated data, instead of predictive guesses and subjective pilot reports. SmoothSky not only improves the passenger experience, it can reduce fuel cost and turbulence-related injuries and aircraft damage. SmoothSky is available for end users via PC or tablet through a subscription to IATA Turbulence Aware or as a set of APIs for developer use.

Visit SmartSkyNetworks.com/SmoothSky for more information.

GET ON BOARD VIA THE SKYTELLIGENCE DEVELOPER HUB

CONTRIBUTE

Add your data to the marketplace, on your terms, for aggregation, purchase or license.

ACCESS

Utilize the Skytelligence platform to harness the power of the information available from all participants.

EVALUATE

View sample data to determine which data set is right for your application.

PURCHASE, LICENSE, EXCHANGE

Skytelligence data is available based on the terms set by the contributor via purchase, license, exchange or public domain.
